Notes and explanations: According to the last driver, this vehicle had numerous maintenance issues including:

Traction Control issues - this would randomly go off  
Anti-lock Brake Issues - in which the brake would sink all the way to the floor  
Fuel Delivery System Issues - positive pressure would buildup within the fuel tank and it would often be difficult to start

RE: Single Feasible Source Purchase

Commissioners:

The Highway Purchasing Department has determined the following item(s) are a single feasible source purchase and wish to enter the single feasible source purchase into the commission minutes.

**Buffalo Turbine Hydraulic Debris Blower**

**Authorized Dealer: Van Wall Equipment**

Van Wall Equipment is the authorized dealer and sole source provider for the purchase of Buffalo Turbine "Hydraulic" Debris Blowers. These blowers are necessary as they are the only ones that are compact enough to fit under the bed of our Broom truck, Unit #099316.

The reason for purchase is that the blower will help prevent the overheating and radiator problems caused by the broom kicking out dust and debris when in use. This should help eliminate the downtime and additional maintenance work from the shop.

Please see the attached correspondence provided by Buffalo Turbine, LLC, and also the quote issued by Buffalo Turbine (Manufacturer)

Pursuant with Section 50.783 RSMo., this intent to make a single source purchase was advertised and no competitive responses were received during the allotted period.

Regards,

*Tami Greene*
