

Emergency Rental Assistance Program

Status Update

The County anticipates having six agency partners to choose from to make an appointment with. We are currently waiting on revised guidance to be issued by the US Treasury in order for us to finalize our application. We have a target goal of starting the program the first week in March.

Agencies are currently hiring and training staff to meet your needs. The County Commission has authorized an allocation of 83.5% of the funds. The remaining 16.5% of funds are being held in reserve until we see how quickly funds are being utilized by our partners. We anticipate the reserve to be allocated after two months of activity. Five of the agencies have signed sub-recipient agreements and the County is working on the initial disbursement of \$2,850,000 funds to these agencies or 33% of the total funds.
